**BELL ACRES BOROUGH  
2024 ROAD IMPROVEMENT PROJECT**

July 29, 2024

To the Residents of Witherow & Dilworth Roads:

Please be advised that the Borough Council of Bell Acres awarded road improvement contract services to Youngblood Paving, Inc., 2516 State Route 18, Wampum, PA as part of the 2024 Road Improvement Project for Witherow Road and Dilworth Road.

The contractor's scope of work consists of milling the existing asphalt overlay, installing Superpave 9.5 mm hot mix asphalt wearing course, making inlet adjustments, removing existing driveway concrete wedge curbs and installing new 12" asphalt wedge curbs. The contractor anticipates commencing work in late Summer 2024.

In preparation for the resurfacing of Witherow Road and Dilworth Road, the Borough's Public Works Department will begin replacing, installing, and improving pipe crossings, culverts and catch basins.

We urge all residents and motorists to exercise caution while traveling through work zones. Motorists should keep a safe distance between vehicles, reduce speed in work zones and obey all posted signs and flags.

We sincerely appreciate your cooperation during the road maintenance work and look forward to the successful completion of the Borough's 2024 Road Improvement Project!

Sincerely yours,

Lisa J. Fleming  
Borough Manager
